

TURFCUTTERS

PM55HSP Turfcutter

The original “ Garden Makeover” turfcutter from Power-Mec - as seen on TV.

Powered by a Honda 5.5hp engine, this excellent turfcutter is built in the UK to the highest standards and is designed to give long reliable service. It features a unique self propelled front wheel drive, which gives improved traction on all ground conditions, and an angled heavy duty blade for a consistent depth of cut.

TC30 Turfcutter

Following closely on the successful heels of the PM55HSP is the TC30.

This unit features a Honda 5.5hp engine, with a tubular steel chassis, steel body casing and steel wheels. Drive is to the rear wheels through a heavy duty gearbox which also features a reverse gear. A single lever is used for height adjustment to control the depth of cut.

MODEL	ENGINE	CUT WIDTH	CUT DEPTH	PROPULSION	WEIGHT
PM55HSP	Honda GX160 5.5hp	12”/ 30cm	Variable up to 40mm	Forward Only	65kg
TC30	Honda GX160 5.5hp	12”/ 30cm	Variable up to 35mm	Forward / Reverse	73kg
